# 6th Annual City Development

Hilton Chongqing, China

6th – 8th June 2012

"Great works are performed, not by strength,  
but **perseverance**."

Samuel Johnson, English Author (1709-1784)

Restructuring and revitalising the urban landscape to empower cities to become more liveable, vibrant and poised for continued growth

## Keynote address by:

**Hon. Brian Howe, AO** Chair – Cities Expert Panel  
**Council of Australian Governments (COAG) Reform Council, Australia**  
Former Deputy Prime Minister  
**Australia**

## Showcasing plenary presentations and case studies by an elite group of distinguished speakers:

**Cr Ken Ong** City Councillor & Chair, Future Melbourne Planning Committee  
**City of Melbourne, Australia**

**Yuyang Liu** Advisory Architect  
**Shanghai Municipality Qingpu District Government**  
Founder & Principal at Atelier Liu Yuyang Architects  
Associate Professor at University of Hong Kong Shanghai Study Centre

**Adnan Hameed Aliani** Chief - Sustainable Urban Development Section, Environment & Development Division  
**United Nations Economic & Social Commission Asia Pacific (UNESCAP)**

**Geoffrey Baird** President, SafeCity Business Unit  
**AGT International, Switzerland**

**Mark Mallory** Mayor  
**Cincinnati, OH USA**

**Prof. Bernard V. Lim** Founding President  
**Hong Kong Institute of Urban Design, China**  
Principal of AD+RG Architecture Design and Research Group Ltd.  
Chairman, Building Committee, Hong Kong Housing Authority

**Vincent Yan** Segment Business Director, Road  
**Philips Lighting, China**

## Key international presentations & distinguished speakers:

**Raymond Wong** Acting Deputy Director of Planning/Territorial  
**Hong Kong Planning Department**

**Prof Li Shirong** Deputy Director General  
**Chongqing Foreign Trade & Economic Relations Commission (COFTEC), China**

**Gavin Munro** MD & Head of Infrastructure Finance Asia Pacific  
**Societe Generale Corporate & Investment Bank, Hong Kong**

**Frans-Anton Vermast** Strategy Advisor  
**Amsterdam Smart City, Netherlands**

**Engr. Ahmad Alamri** Supervisor - Industrial Planning Unit  
**Royal Commission for Yanbu, Saudi Arabia**

**Zhang Yuanlin** Director General  
**Chongqing Urban Planning Bureau, China**

**Marshall Strabala** Founder and Design Partner  
**2DEFINE Architecture, China**

**Dr. Jia Wenzheng** Director of Urban Rail Transit  
**Ministry of Transport, China**

**Albert Chan** Director of Development Planning and Design  
**Shui On Land**

**Raymond W M Wong** Lecturer and Research Fellow  
**City University of Hong Kong**

**Walter Wasner** DI - Unit for Mobility & Transport Technologies  
**Austrian Federal Ministry for Transport, Innovation & Technology**

**Oravit Hemachudha** Deputy Director-General, Traffic & Transportation Department  
**Bangkok Metropolitan Administration, Thailand**

**Bhupinder Singh Bedi** PPP Expert  
**Ministry of Urban Development, Government of India**

**Baizhan Li** Professor of Built Environment, Dean of The Faculty of Construction and Environmental Engineering, Director of Institution of Research Central on Eco-City and Built Environment  
**Chongqing University, China**

**Christopher J. Coonan** Chief Design Architect, Dept. No. 2  
**Chongqing Design & Research Institute**  
Vice President of Design, Oculus Architects PC – Chicago

**Yu Long** General Manager  
**Yunnan Water Industry Investment Co., Ltd, China**

**William Lau** President  
**Singapore Institute of Planners**

**Geoffrey Hamilton** Chief - PPP Centre of Excellence  
**United Nations Economic Commission for Europe International (UNECE), Switzerland**

**Kent Munro, MCIP** Director of Planning (Acting)  
**City of Vancouver, Canada**

**Robert J. Earley** Director - Low Carbon Transportation Programme  
**Innovation Centre for Energy & Transportation (iCET), China**

**Luxin Huang** Director, Department of International Cooperation & Development & International Planning Studio  
**China Academy of Urban Planning & Design (CAUPD)**

**Emma Sri Martini** President Director  
**PT Sarana Multi Infrastruktur, Persero, Indonesia**

**Dr. Xin Yu** Professor Environmental Engineering, Institute of Urban Environment  
**Chinese Academy of Sciences**

**Zhang Wen** Segment Business Director, Urban  
**Philips Lighting, China**

## Featuring an exclusive 3rd day conference focusing on Urban Mobility

Exploring sustainable solutions to tackle congestion and improve urban transportation for a more liveable city

## Wednesday 6th June 2012

0830 Registration and Coffee

0900 Welcoming Address

0910 Opening Remarks from the Chair

**Prof. Bernard V. Lim** Founding President  
Hong Kong Institute of Urban Design, China

0915 Plenary One - Reshaping our capital cities: Managing population and economic growth through strategic city planning

**Hon. Brian Howe, AO** Chair – Cities Expert Panel  
Council of Australian Governments (COAG) Reform Council, Australia  
Former Deputy Prime Minister  
Australia

1000 Plenary Two - Sustainable urban design and housing developments in an overall structure of a city

**Prof. Bernard V. Lim** Founding President  
Hong Kong Institute of Urban Design, China  
Principal of AD+RG Architecture Design and Research Group Ltd.  
Chairman, Building Committee, Hong Kong Housing Authority

1045 Coffee and Networking Break

1115 Plenary Three - Safe City for greater safety, efficiency and wellbeing

**Geoffrey Baird** President, SafeCity Business Unit  
AGT International, Switzerland

1200 Plenary Four - Going green: Integrating environmental, social and economic elements in sustainable urban development strategies

**Adnan Hameed Aliani** Chief - Sustainable Urban Development Section, Environment & Development Division  
United Nations Economic & Social Commission Asia Pacific (UNESCAP)

1245 Luncheon hosted by  AGT INTERNATIONAL

### Stream One

#### Urban Planning & Development

1400 Opening Remarks from the Chair

**Zhang Wen** Segment Business Director, Urban  
Philips Lighting, China

1410 Creating Special Economic Zones (SEZs) to attract foreign investment and boost development

- Reviewing SEZs as engines for development and growth
- Analysing the attributes of successful SEZs to optimise policies and incentives
- Achieving economies of scale by leveraging on existing assets for greater synergies

**Professor Li Shirong** Deputy Director General  
Chongqing Foreign Trade & Economic Relations Commission (COFTEC), China

1450 Vancouver's achievements in city-building: What's next after liveability?

- Assessing the attributes of a liveable city
- Examining the policy actions that have been taken and the exploited opportunities to make Vancouver one of the most liveable cities in the world today
- Focusing on the challenges and goals that face Vancouver and other cities for the next 25 years

**Kent Munro, MCIP** Director of Planning (Acting)  
City of Vancouver, Canada

1530 Coffee and Networking Break

1600 Balancing city planning with economic growth: Challenges in designing compact cities of the future

- Planning for sustainable communities through an emphasis on urban strategy, design and standards
- Reaping the economic and fiscal benefits of high density through lower per capita infrastructure costs and more equitable distribution of services
- Translating vision to implementation: Hong Kong's perspective on high density planning

**Raymond Wong** Acting Deputy Director of Planning/Territorial  
Hong Kong Planning Department

1640 Advancing the sustainability agenda: Designing and planning low-carbon cities in response to climate change

- Reshaping cities for the long-term health of human and natural systems
- Addressing urban sprawl and incorporating sustainability whilst enhancing liveability
- Encouraging efficient and cleaner modes of travel that foster a more sustainable environment

**Zhang Yuanlin** Director General  
Chongqing Urban Planning Bureau, China

1720 Community based urban planning: The recent cases of CAUPD

- Analysing how community started and evolved, and how it was introduced and understood in China's urban development
- Implementing urban planning based on communities through integrating up-down and bottom-up approaches
- Reviewing implementation and examining its potential through several cases since 2006

**Luxin Huang** Director, Department of International Cooperation & Development & International Planning Studio  
China Academy of Urban Planning & Design (CAUPD)

1800 Closing Remarks from the Chair

1810 End of Day One

### Stream Two

#### Infrastructure Development & Financing

1400 Opening Remarks from the Chair

**Frans-Anton Vermast** Strategy Advisor  
Amsterdam Smart City, Netherlands

1410 Promoting low carbon and green buildings for sustainable city development in China

- Examining potential of improving energy efficiency in buildings and greenhouse gas emission (GHG) reduction in China
- Utilising low carbon design to solve environmental issues and ensure inhabitants' well-being
- Cases of successful implementation of green solutions

**Baizhan Li** Professor of Built Environment, Dean of The Faculty of Construction and Environmental Engineering, Director of Institution of Research Central on Eco-City and Built Environment  
Chongqing University, China

1450 Improving the water environment remediation efficiency and promoting sustainable development of regional economies through the use of advanced technology

- Analysing the core-competitiveness of the 3AMBR process
- Adopting modern business models: Double-Engine Driving of technology and fund
- Discovering the systemic renovation on the environment of water bodies such as rivers, lakes and basins
- Forecasting the road ahead for such technologies

**Yu Long** General Manager  
Yunnan Water Industry Investment Co., Ltd, China

1530 Coffee and Networking Break

1600 Leveraging on Public-Private Partnerships (PPPs) to finance infrastructure needs for growing urban cities

- Coming up with the right business model for PPPs and strengthening institutional capacities to manage their implementation
- Structuring PPP projects that are mutually beneficial for private and public sectors alike
- Establishing a roadmap for a successful PPPs: Key factors to consider and pitfalls to avoid

**Bhupinder Singh Bedi** PPP Expert  
Ministry of Urban Development, Government of India

1640 Adopting sustainable and renewable energy solutions for cities - Challenges and opportunities

- Making the business case for renewable: The realities of applying green design techniques
- Ensuring all stakeholders are engaged when making the decision to move ahead with renewable energy
- Exploring solar and other renewable technologies for great energy efficiency

**Frans-Anton Vermast** Strategy Advisor  
Amsterdam Smart City, Netherlands

1720 Assessing how the mass transit railway system (MTR) has been helping to reshape and uplift the urban pattern of Hong Kong

- Discussing the strategies adopted in city planning for Hong Kong
- Examining various waves of MTR developments since the late 1970s
- Highlighting the features and composition of the major MTR lines
- Enhancing the urban uplifting process through common planning and design elements of rail networks

**Raymond W M Wong** Lecturer and Research Fellow  
City University of Hong Kong

1800 Closing Remarks from the Chair

1810 End of Day One

## Thursday 7th June 2012

### 0830 Registration and Coffee

### 0900 Opening Remarks from the Chair

**Cr Ken Ong** City Councillor & Chair, Future Melbourne Planning Committee  
City of Melbourne, Australia

### 0910 Plenary One - Planning and revitalising modern cities to enhance liveability

**Cr Ken Ong** City Councillor & Chair, Future Melbourne Planning Committee  
City of Melbourne, Australia

### 0950 Plenary Two - Introducing Philips 'City People Light' concept and innovative lighting solutions

**Vincent Yan** Segment Business Director, Road  
Philips Lighting, China

### 1030 Coffee & Networking Break

### 1050 Plenary Three - Revitalising a city's urban core for greater sustainability: A case study of the PPP between the City of Cincinnati and the Cincinnati Centre City Development Corporation

**Mark Mallory** Mayor  
Cincinnati, OH USA

### 1130 Plenary Four - Panel Discussion: Responding to the challenges of increased urbanisation and attracting city investments

Panellists

**Hon. Brian Howe** AO Chair – Cities Expert Panel  
**Council of Australian Governments (COAG) Reform Council, Australia**  
Former Deputy Prime Minister  
Australia

**Mark Mallory** Mayor  
Cincinnati, OH USA

**Kent Munro MCIP** Director of Planning (Acting)  
City of Vancouver, Canada

**Cr Ken Ong** City Councillor & Chair, Future Melbourne Planning Committee  
City of Melbourne, Australia

### 1210 Plenary Five - Architecture as creative and sustainable urban generators: Learning from Chinese cities in the cases of Shenzhen, Chengdu and Shanghai

**Yuyang Liu** Advisory Architect  
**Shanghai Municipality Qingpu District Government**  
Founder & Principal at Atelier Liu Yuyang Architects  
Associate Professor at University of Hong Kong Shanghai Study Centre

### 1250 Networking Lunch

## Stream One

### Town Planning & Development

### 1400 Opening Remarks from the Chair

**William Lau** President  
Singapore Institute of Planners

### 1410 Elaborating how super tall buildings can reduce urban sprawl and land shortage through the development of vertical cities

- Understanding conveyance as the arresting factor of our environment and density as the architectural constraint
- Debating on height: Solution or problem
- Addressing environmental concerns of the vertical city
- Examining vertical cities as a workable typology 90 stories and above
- Pinpointing considerations for future development

**Marshall Strabala** Founder and Design Partner  
2DEFINE Architecture, China

### 1450 Successfully planning and managing an integrated township development to bring urbanisation to rural areas

- Examining the latest trends of sustainable public housing and township models
- Meeting the needs of people migrating from rural areas by developing satellite townships away from crowded metros
- Providing adequate infrastructure around and within the township to appeal to citizens and to ensure smooth connectivity

**William Lau** President  
Singapore Institute of Planners

### 1530 Coffee and Networking Break

### 1600 Development of Chongqing Tiandi as commercial hub for western China

- Evaluating Chongqing Hualongqiao site as a mixed-use commercial hub
- Planning and designing a master planned development – pre requisites to be considered
- Forming sustainable development strategies for Chongqing Tiandi

**Albert Chan** Director of Development Planning and Design  
Shui On Land

### 1640 Planning and developing a new industrial subdivision within a town: Case Study on Yanbu Industrial City

- Analysing the development of Yanbu Industrial City
- Evaluating alternative scenarios of an industrial area subdivision plan
- Utilising traffic analysis on-site and on adjacent roadways to optimise size of roads and traffic control types

**Engr. Ahmad Alamri** Supervisor - Industrial Planning Unit  
Royal Commission for Yanbu, Saudi Arabia

### 1720 Designing and redeveloping the Central Business District (CBD) as a global hub for business

- Re-creating and reinforcing the form of traditional urban commercial districts through mixed use developments
- Integrating public transportation within the CBD to reduce congestion and improve sustainability
- Designing solutions towards a balanced environment for urban life where public amenities and work opportunities are within easy access

**Christopher J. Coonan** Chief Design Architect, Dept. No. 2  
**Chongqing Design & Research Institute**  
Vice President of Design, Oculus Architects PC – Chicago

### 1800 Closing Remarks from the Chair

### 1810 End of Day Two

## Stream Two

### Infrastructure Development & Financing

### 1400 Opening Remarks from the Chair

**Robert J. Earley** Director - Low Carbon Transportation Programme  
Innovation Centre for Energy & Transportation (iCET), China

### 1410 Assessing the Feasibility of PPPs for Financing Transportation Infrastructure in Indonesia

- Outlining the different financing schemes available for infrastructure projects in Indonesia
- Highlighting the importance of partnership among stakeholders: What has been done?
- Assessing the pros and cons of different contract models that are currently in use

**Emma Sri Martini** President Director  
PT Sarana Multi Infrastruktur, Persero, Indonesia

### 1450 Exploring Funding Packages and Financial Strategies to Address the Infrastructure Funding Gap

- Evaluating the ability of traditional funding sources to cover infrastructure needs
- Mobilising long term resources for infrastructure development – addressing the inherent challenges
- Addressing the asset-liability mismatches faced by banks in long-term projects through take out financing

**Gavin Munro** MD & Head of Infrastructure Finance Asia Pacific  
Societe Generale Corporate & Investment Bank, Hong Kong

### 1530 Coffee and Networking Break

### 1600 Raising PPP awareness – What needs to be done to ensure success in infrastructure development

- Developing a government PPP taskforce to identify key areas of infrastructure growth planning
- Building capacity for PPP infrastructure design and development
- Setting PPP guidelines and methodologies appropriate to the state to encourage growth of projects in the long run

**Geoffrey Hamilton** Chief - PPP Centre of Excellence  
United Nations Economic Commission for Europe International (UNECE), Switzerland

### 1640 Improving infrastructure system for sustainable city development

- Establishing a vibrant and conducive living environment by incorporating sustainability initiatives into city planning
- Providing well designed public spaces to encourage public access
- Developing infrastructure system to support sustainable city and economic growth

**Dr. Xin Yu** Professor Environmental Engineering, Institute of Urban Environment  
Chinese Academy of Sciences

### 1720 Panel Discussion: Financing viable infrastructure development projects in cities by leveraging on PPPs

Panellists

**Gavin Munro** MD & Head of Infrastructure Finance Asia Pacific  
Societe Generale Corporate & Investment Bank, Hong Kong

**Geoffrey Hamilton** Chief - PPP Centre of Excellence  
United Nations Economic Commission for Europe International (UNECE), Switzerland

**Emma Sri Martini** President Director  
PT Sarana Multi Infrastruktur, Persero, Indonesia

### 1800 Closing Remarks from the Chair

### 1810 End of Day Two

## Friday 8th June 2012

### Urban Mobility Day

In response to rapid urbanisation, population explosion, traffic congestion and climate change challenges, the need for sustainable transport solutions and initiatives has never been greater for cities. By all accounts, most cities are growing at a rate which would render existing transportation infrastructure inadequate to cope with future needs. As such, cities need to increase their investments in urban transportation infrastructure and explore alternatives to ease congestion in order to achieve greater mobility and a better quality of life for their citizens.

#### 0830 Registration and Coffee

#### 0855 Opening Remarks from the Chair

**Dr. Jia Wenzheng** Director of Urban Rail Transit  
**Ministry of Transport, China**

#### 0900 Plenary One – Rehabilitating national highways, rural and urban roads to accommodate increased traffic volumes and ease congestion

- Bridging the urban divide by providing adequate, quality, safe and efficient road networks
- Moving forward: Devising strategies to construct, maintain and manage rural road networks for sustainable socio-economic development
- Mainstreaming the technical and financial challenges for road rehabilitation projects

**Bhupinder Singh Bedi** PPP Expert  
**Ministry of Urban Development, Government of India**

#### 0945 Plenary Two – Addressing critical issues on urban rail transit operations in China

- Evaluating the urban rail transit planning, construction and operations
- Enhancing safety in urban transport systems for greater revenue and
- Conducting safety audits for the operating lines and pre-revenue service lines
- As-is and to-be: Forecasting the future of China urban rail transit operations

**Dr. Jia Wenzheng** Director of Urban Rail Transit  
**Ministry of Transport, China**

#### 1030 Coffee and Networking Break

#### 1100 Plenary Three – Examining sustainable approaches to improving and expanding connectivity within cities through multi-modal transport

- Introducing an efficient public transportation system to maximise intermodal connectivity and improve mobility
- Balancing public and private transport to accommodate increased traffic volumes
- Optimising public transportation routes to increase coverage and reliability to encourage greater public uptake

**Walter Wasner** DI - Unit for Mobility & Transport Technologies  
**Austrian Federal Ministry for Transport, Innovation & Technology**

#### 1145 Plenary Four – Panel Discussion: Promoting sustainable transportation solutions to match the rapid pace of development in Asian cities

- Masterplanning and zoning around major transit facilities to support sustainable economic growth
- Implementing a more sustainable approach to urban planning in the use of land around transit stations
- Leveraging on TOD to optimise the use of transit networks and enhance mobility for local communities

Panellists

**Vincent Yan** Segment Business Director, Road  
**Philips Lighting, China**

**Robert J. Earley** Director - Low Carbon Transportation Programme  
**Innovation Centre for Energy & Transportation (iCET), China**

**Raymond W M Wong** Lecturer and Research Fellow  
**City University of Hong Kong**

#### 1245 Networking Luncheon

#### 1400 Plenary Five – Adopting low-carbon and low-energy approaches towards sustainable transportation in cities

- Strategies for reducing carbon and other emissions from the transportation sector in cities
- Municipal fleet management for lower emissions in cities - choices for vehicles and energy sources, and their supporting infrastructure
- Reducing auto ownership to encourage alternative transport modes: car sharing as a case

**Robert J. Earley** Director - Low Carbon Transportation Programme  
**Innovation Centre for Energy & Transportation (iCET), China**

#### 1445 Plenary Six – Capitalising on Bus Rapid Transit (BRT) systems to alleviate urban mobility challenges

- Dedicating specific bus lanes and introducing feeder systems to maximise usage of buses and cut down on transport times
- Ensuring integration with other existing forms of public transport, eg LRTs, MRTs, bicycles to ensure greater connectivity
- Discussing case studies of other successful cities who have implemented BRTs

**Oravit Hemachudha** Deputy Director-General, Traffic & Transportation Department  
**Bangkok Metropolitan Administration, Thailand**

#### 1615 End of the Conference and Afternoon Refreshments

## Why you cannot miss this event?

The rapid pace of urbanisation across the globe has led to substantial challenges in the planning and development of cities. With 50% of the world's population now living in urban areas, urban planners need to create sustainable, liveable cities and provide for adequate infrastructure to solve the problems of congestion, air pollution and aging infrastructure that could potentially limit a city's growth. Asian cities in particular are focusing on restructuring and revitalising their urban environments and blending in sustainability elements to ensure their efforts towards maintaining economic growth do not compromise long term liveability for their inhabitants.

The **6th Annual City Development** conference provides a one-stop platform for cutting-edge issues, strategic solutions, investment strategies and pertinent case studies in urban planning, infrastructure development and city management. Building on the success of previous City Development conferences, this highly anticipated event is an excellent platform to network, exchange ideas, seek business opportunities and tap into the experience of key industry leaders.

Staying on top of the rapid developments in designing better and more liveable cities, this event will also feature an exclusive **Urban Mobility Day** on the **8th June 2012** to explore the dynamics of sustainable approaches to combating traffic congestion and increasing mobility within cities, address the shift towards Transit Oriented Development, financing of urban transportation infrastructure as well as low-energy and low-carbon methods of transportation.

The streams allocated in the conference agenda include:

### Day 1

Stream 1: Urban Planning & Development  
Stream 2: Infrastructure Development & Financing  
Stream 3: City Investments & Real Estate

### Day 2

Stream 1: Town Planning & Development  
Stream 2: Infrastructure Development & Financing

## Benefits of attending this premier marcus evans conference include:

- **Leveraging** best practices on planning and developing liveable and sustainable cities
- **Attracting** new investments through the creation of Special Economic Zones
- **Facilitating** urban mobility through a seamless transportation network
- **Incorporating** public amenities and spaces for greater economic growth and social development
- **Exploring** best practices for restructuring and revitalising urban areas to maintain a city's vibrancy and image
- **Adapting** to and managing the effects of climate change confronted by cities
- **Mitigating** the risks of flooding and other natural disasters through urban risk management initiatives
- **Developing** green growth strategies to balance urban development with sustainability concerns
- **Addressing** city congestion through an integrated traffic management plan
- **Realigning** the activities of public-private partnerships for sustainable urbanisation
- **Networking** opportunities with the authorities, international organisations, top industry players

## Who should attend

**Government Authorities, Ministries, City Councils, Municipalities & Local Governments**  
**Ministers, Director Generals, Secretary Generals, City Managers, Commissioners, Heads, Officers of:**

- Urban Planning & Development
- Project Management
- Construction / Public Works Development
- Urban Redevelopment
- Green Technology
- Infrastructure Development
- Risk Management
- Financing & PPPs
- Town Planning
- City Management
- Economic Planning &
- Housing & Human Settlements
- Transportation
- Environment & Natural Resources
- Investments
- Tourism

**Engineering & Construction Firms, Consultants, Contractors & Builders**

**Chairmen, Presidents, CEOs, MDs, VPs, Directors, GMs, Principals, Partners and Heads of:**

- Civil Engineering
- Water & Waste Management Facilities
- Business Development
- Projects
- Transportation Infrastructure
- Project Financing
- Environmental Engineering

**Architecture Firms**

**MDs, Principals, Directors, Designers, Chiefs, Heads of:**

- Urban Planning
- Sustainability
- Green Buildings
- Architecture & Design
- Energy Efficiency

**Property Developers**

**Chairmen, Presidents, CEOs, MDs, Directors, GMs and Heads of:**

- Urban Planning & Development
- Business Development
- Energy Efficiency
- Engineering
- Real Estate
- Sustainability/ Environment
- Land Surveying
- Projects

**Also: Financial & Investment Institutions, Academic Institutions & Research Centres**

## Geographical Target Market:

Asia Pacific	80%
Middle East/ Africa	10%
Others	10%

## Acknowledgement

**marcus evans** would like to thank all the world-leading visionaries, solution providers, associations, operators, end-users and delegates who have contributed to and supported the **marcus evans 6th Annual City Development** Large Scale Event. We would particularly like to mention our speakers for their help in the research behind the event and also our sponsors for their continued support and commitment.

On behalf of **marcus evans** we hope you have a rewarding, enjoyable and productive time. We personally look forward to meeting you all and working with you at our future Large Scale Events planned in 2012. See you in June!

## Business Opportunities

A limited amount of sponsorship opportunities are available for this conference. These include, but are not limited to opportunity to present case studies, exhibit, host networking functions, and benefit from the extensive branding and marketing exposure generated throughout the lifecycle of the event.

For further information please contact **Peter Morgan** on **+61 2 9238 7200** or email **pterm@marcusevansau.com**

# Our Business Partners

## About the Gold Sponsor

**Yunnan Water Industry Investment Co., Ltd** is invested by Yunnan Water Co., Ltd and Beijing Origin Water Technology Company. The company registered capital of RMB 600 million yuan and the total assets of RMB 3.885 billion yuan. Holding companies and participation at this stage 44, and now has been formed for the water supply and drainage capacity total 1.68 billion tons per day.

## About the Endorsers

**International Facility Management Association (IFMA)** Hong Kong Chapter is the leading FM authority in the Asia Region, established on 14th September 1992 by ten facility managers, now with over 240 members. We are a non-profit association dedicated to serving the facility management profession. The Hong Kong Chapter has a busy program of educational and special events offering many opportunities for professional growth and networking. Our full-time administrator co-ordinates the work of the elected Board to keep our Chapter affairs running smoothly. Members and friends are encouraged to participate in Chapter events to broaden their knowledge and share their experience.

[www.ifma.org.hk](http://www.ifma.org.hk)

**RICS** is the world's leading professional body for qualifications and standards in land, property and construction. As people, governments, banks and commercial organisations continue to demand more assurance of certified standards and ethics, attaining RICS status is the recognised mark of property professionalism

**The International Society of City and Regional Planners (ISOCARP)** is a global association of experienced professional planners. ISOCARP encourages the exchange of professional knowledge between planners, promotes the planning profession, stimulates and improves planning research and education and enhances public awareness and understanding of major planning issues. The association's main event is the annual World Congress. [www.isocarp.org](http://www.isocarp.org)

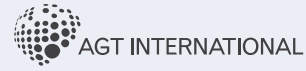

**United Cities and Local Governments Asia Pacific (UCLG ASPAC)** is the biggest of the eight sections in UCLG, worldwide association of local government organizations. It is the key knowledge management hub on local government issues in the region with linkages to more than 7,000 local governments.

**The Chartered Institution of Civil Engineering Surveyors (ICES)** is an international qualifying body dedicated to the regulation, education and training of surveyors working within civil engineering.

ICES sought to encourage and regulate the professional aspirations of quantity surveyors and land surveyors working within the civil engineering sector and to increase the value of their services to the public.

## About the Platinum Sponsors

**AGT International** is one of the fastest-growing public safety and security solutions organizations in the world, with operations across the globe.

Led by a unique vision, AGT International offers innovative solutions in the areas of critical infrastructure and border protection, urban management, cyber security, transportation, law enforcement, and natural disaster preparedness, helping unlock the world's potential by enabling the free flow of goods, services, people, and ideas.

Headquartered in Zurich, Switzerland, AGT International employs 2,300 people worldwide, representing over 50 nationalities. The organization was founded in 2007, and is managing \$8 billion in projects. AGT International is led by Founder and CEO, Mati Kochavi. [www.agtinternational.com](http://www.agtinternational.com)

## PHILIPS

**Royal Philips Electronics** of the Netherlands is a diversified Health and Well-being company, focused on improving people's lives through timely innovations. As a world leader in healthcare, lifestyle and lighting, Philips integrates technologies and design into people-centric solutions, based on fundamental customer insights and the brand promise of "sense and simplicity". Headquartered in the Netherlands, Philips employs approximately 120,000 employees in more than 100 countries worldwide, with sales of EUR 22.3 billion in 2010.

## About the Official Supporting Organisation

**Chongqing Foreign Trade and Economic Relations Commission (COFTEC)** is the functional department of Chongqing municipal government in its comprehensive management over the foreign trade and economic cooperation activities of the city. Its main duties are: management of foreign trade in the city, attracting foreign investment in Chongqing and promoting Chongqing companies to invest abroad.

## About the Media Partners

Launched in April 2004, **Property Report** South East Asia is the region's leading monthly real estate magazine, providing comprehensive coverage of luxury residential property markets throughout Thailand, Malaysia, Singapore, Indonesia, Vietnam, the Philippines and Cambodia. The trusted source for real estate news, opinions and analysis in print and online.

**Green Prospects Asia (GPA)** is a regional green business magazine that publishes monthly in print, online and digital formats. The magazine, its website and associated media provide immediately-useful information on environmentally preferable technologies, products and services in all sectors, especially in the Asia Pacific. For more information, visit [www.greenprospectsasia.com](http://www.greenprospectsasia.com)

The construction industry's preeminent publication, **PRC** Magazine recently celebrated ten years in the market. A PRC front cover feature is highly in demand by large businesses that use the publication as collateral for their regional marketing. Call us today and discover why more and more businesses are partnering with PRC.
